

Company Profile

Skynet Lighting Co., Ltd.
is a daughter company of
Skynet Electronic Co., Ltd.

The design and manufacture of
switch mode power supplies has
been the core business of Skynet
since 1979.

The know-how of electronic ballast
is almost the same as switch mode
power supply. But the nature of
marketing is far different.

To distinguish ballast business
from power supply business,
Skynet Lighting Co., Ltd. was
established in 2001.
